SUMMARY

Experienced web developer proficient in ReactJS for frontend development and NodeJS (Express, Koa) for backend development. Eager learner with a passion for exploring new technologies and frameworks to enhance project capabilities. Excited to leverage expertise in ReactJS and NodeJS to contribute to innovative projects and continue expanding skillset.

TECHNICAL SKILLS

Languages: Javascript, TypeScript, SQL, NoSQL

Libraries: React, NextJS, Express, React Native

Technologies: Git, Docker, AWS

Database: Postgres, MongoDB, CouchDB, ArangoDB

EXPERIENCE

Software Engineer

Sept. 2022 – Present

Serverlane Technologies

Mumbai, India

- Developed various Enterprise Management Applications catering to diverse business needs.
- Implemented a robust real-time transaction processing system, efficiently handling high-volume financial transactions while maintaining detailed transaction history and logs.
- Designed and integrated a comprehensive logging system to capture and store transaction details, ensuring compliance with regulatory requirements and enabling thorough audit trails.
- Engineered a modular and extensible architecture, facilitating seamless integration of new payment gateways with minimal core codebase modifications.
- Created a user-friendly configuration interface, enabling non-technical users to manage and prioritize payment gateway preferences, thereby reducing developer dependency.
- Collaborated with cross-functional teams to gather requirements and ensure the system met the diverse needs of different projects and business scenarios.
- Tech Stack:** ReactJS, NextJS, ExpressTS, AWS Services
- Database:** PostgresQL, MongoDB

Software Engineer

Jan. 2021 – Aug. 2022

Tidal Wave Technologies Pvt. Ltd

Mumbai, India

- Collaborated with a team of developers and designers to translate wireframes and functional documentation into responsive and user-friendly UI components using ReactJS.
- Assisted in the development and implementation of a farming assistance system designed to streamline agricultural processes and improve productivity for farmers.
- Contributed to the design and implementation of an intuitive web-based admin console using ReactJS, enabling administrators to efficiently manage and monitor multiple farms.
- Participated in the development of a cross-platform mobile application using React Native, providing farmers with a user-friendly interface for farm-related activities.
- Collaborated with senior developers to gather requirements, troubleshoot issues, and implement enhancements to the system.
- Engaged in ongoing learning and professional development opportunities to expand technical skills and knowledge in software development.
- Tech Stack:** ReactJS, React Native, KoaJS
- Database:** CouchDB, PouchDB, ArangoDB

EDUCATION

Tilak Maharashtra Vidyapeeth

Bachelor of Computer Applications

Pune, Maharashtra, India

2007 - 2012
